

# REPORT JOB FAIR

---

**CENTER OF EXCELLENCE  
SANJAULI SHIMLA**

## INTRODUCTION

On 7 August 2024, a job fair was hosted in Kotshera college Shimla, witnessed by many students from different colleges. The event allowed students from various colleges to network with professionals and learn industry trends. It was a platform for students to explore career opportunities, connect with potential employers and gain insights into industry trends. This event not only provided students with networking opportunities but also filled the gap between theoretical knowledge to practical skills needed in industries.

## METHODOLOGY

The job fair featured various companies, each setting up individual stalls to showcase their employment opportunities. The event was well-attended by job seekers eager to explore career prospects across different industries.

**Agile Healthcare** is a healthcare sector, specializing in innovative solutions and patient care services. They were represented at the job fair to recruit individuals from different levels of education.

**Company Mahindra** also participated in the job fair with job vacancies for Graduates. Encouraging students to go on new internships with their companies. They have different offers especially to the students and other participants present in the job fair.

## EXPERIENCE

Participants were able to have a brief conversation with recruiters, handing out resumes, listening to lectures on resume writing and so on. The energy was intense, a combination of excitement and nervousness, They get to establish a solid contact with each other.

## Conclusion

The event successfully facilitated a number of networking opportunities, about future employment. Many students expressed satisfaction with the opportunities and the interactions they experienced. Overall, the job fair achieved its goal of bridging the gap between talent and opportunity, setting a positive tone for future career development efforts.
