Power Point Presentation on Food Processing and Some important Commercial Polymers.

A presentation on Food Processing was given by Professor Rita Chandel in CLT for the students of BSc(3) and BSc(2). Another presentation on Some important Commercial Polymers was given

by Professor Shalu Chauhan. The various aspects of like structure, uses and importance of the topic were discussed in detail by the teachers. The students asked questions relating to the topics and participated actively. It was very interesting and informative session.
