

Coaching for JAM Exam

2019-2020

The Science faculty of GC Sanjauli provided guidance to the BSc 3rd year students for the preparation of the IIT JAM exam. The guidance included a comprehensive study plan and regular mock tests to assess the students' progress.

The faculty also provided individual attention to each student and identified their strengths and weaknesses, providing personalized guidance to help them overcome their weaknesses. The students were also given access to a range of study materials and resources, including textbooks, practice sets, and online resources, to help them prepare for the exam.

The faculty also conducted doubt-solving sessions and provided feedback on the students' performance in mock tests, which helped the students identify areas they needed to work on. The faculty's guidance and support helped the students build confidence and develop a strong foundation in the subjects, which proved useful in the exam.

Overall, the Science faculty's guidance was instrumental in helping the BSc 3rd year students prepare for the IIT JAM exam. Their efforts resulted in a significant improvement in the students' performance, and many of them were able to perform well in the exam and secure good ranks.
