DISASTER MANAGEMENT CELL

REPORT: BRIEFING ON LANDSLIDES AND FLASH FLOODS

21 AUGUST 2023

The Disaster Management committee in collaboration with Departments of Geography and Environmental Science organised a briefing on landslide and Flash Floods on 21 August, 2023. Dr. Mona Sharma from the Department of Geography gave a clear and detailed information on the courses and characteristic of landslides. She also highlighted the warning signs to be noted during such natural calamities. Other than apprising students about the Do's and Don'ts during landslides, she told students to follow the three 'A's – Alert, Aware & Alarm. Prof. Lakhbeer from the Department of Environmental Science spoke at length on flash floods and its disastrous impact on life and property. He apprised the students on the causes and types of Flash floods followed by Do's and Don't during such calamities. Both our spoke persons also focused on response, rescue and recovery during landslides and flash floods. The briefing was attended by more than 1000 students. They hopefully will benefit from the session and become more aware.
