

Report on Climate Change Awareness Week (25- 30 September 2023)

Department of Environment Science

Department of Environment Science at CoE, GC Sanjauli, Shimla-6 organised a “Climate Change Awareness Week” program from 25th to 30th September 2023. In this programme students gave presentations on different topics related to “their perception and awareness on the climate change problems”. The main aim of this awareness week is to spread awareness among other students about sources, causes, impacts and mitigation measures of these issues such as global warming, increasing pollution, ozone hole, solid waste, landslides, and floods *etc.* Students also highlighted the role of individual in conservation of environment. Students from B.Sc. (Physical and Life science), B.Voc. (H&T), and BBA participated in this awareness week.
