No suggestions.

Everything is good

No suggestion

nothing

Very good

All good

no suggestions

Classes should be regular

....

No suggestions.

No comments

NO

Please increase the campus area

I have no suggestion

Excellent

-

Library should have more space

Everything is fine

There is a crucial need of improvement in the current learning system . Classes should be regular and teachers should be more practical in their teachings . While in the theoretical subjects like arts they should teach in a way to increase the imaginative and thinking capacity of the students . The institution should also focus on the morality , etiquette and discipline among students. And the goonism culture flourishing nowadays should be eradicate . But whatever nothing will be changed.

No Suggestions

.....

Everything is good

Good

Excellent

No Suggestion.... Teachers are way smarter then us... No need of suggestions

Nothing. Also fine

All is good...:)

Practical knowledge should be increased among science students by visiting or introducing botanical Gardens or various syllabi related educational tour

NO

More class test should be conducted for better preparations for exams

\*

Should focus more on library sitting system , data processing system is very poor. Must make educational trips for students to different state for better understanding their society.

Practical knowledge is not so good

Best college ever

There should be regular classes and there is no provision of ICT ways of learning for many subjects of arts

Sociology and physical education

Please improve facilities in BBA department..... We have wooden rooms but didn't have any fire extinguisher which is very substandard and all the stting benches all covered by dust., the baranda is too shabby every thing is too much shabby in bba department...which is very unpleasant because we paid 22000 fee for this course and I think that is the most expensive cours in the college .....

Give pratical knowledge

Teachers are all very good

Nothing

Atleast have one sports room 😞

There should be technical advancements , more like a 3D experience in the smart classes

The teachers are good and supportive and overall performance of college is much good...

My experience is excellent

All teachers are encouraging..... They always support us.....

Really need a girls hostel and better infrastructure. 😊

More interactive session apart from syllabus,

Best 👍

Everything is good currently

I think we should choose more practical ways to enhance our knowledge specially in science....

The computers in geography lab need to be installed with proper equipments so that we can learn GIS effectively without any worry.

Sports complex

Should give professor sufficient time to teach students, they are always indulge in other activities all the time.

Improvement is needed in syllabi and availability of books and related documents of subjects both online and offline.

Thnq

I don't have any suggestions

Nothing to be added 🙏

More careful about students

Lectures are very good but it can be improve

The curriculum should focus on all round development of students which should include some career guidance classes, some real life learning experiences. Learning of BA should include ICT based learning.

Create a huge library and increase syllabi

I don't have any suggestions

I think that teaching staff is very good but I feel that some teachers lack in acquiring the full potential of students sometimes the focus is more on completing the given projects and

assignment in record time rather to assess the potential of an individual

Nice teacher

Nil

Focus on practical based study.

The all subjects are very good

Classes in college by the teachers should be taken on regular basis, as the student gets to know more about the subject when taught in the class rather than just self studying

Improve the materials used in lab

Yes

Girls washroom should be more clean.

Improve the ICT facilities the learning process in class...

May be because session started very late .. so review is good 👍

I don't have any suggestions.

Nothing.

Preparation for various competitive exams

NA

Please do some other activities in college like declamation, debates etc. You even do not inform science students to do that. If any student say that he/she want to participate the teachers say that that competition is not under your department.You know nothing about that. So please give chance to every student no matter how/she is from which department.

I think we should pay more attention towards the personality development , attitude building , character making and man making . Because if a student is good is study, it doesn't mean that he has overall development . This is one that we deal with .

Regards
