

Activity of the session 2020-2021

Online Seminar on Geographical Features

Geographical society of the college due to pandemic and strict lockdown conducted an online seminar on 14th October, 2020. In this regard the students were asked to make a short presentation on any geographical features in their locality.

A student from Kinnaur district Anurag Negi showed us glaciers and some related features, another student from tattapani showed hot water springs, two students from Lahaul took us on a journey from Tandi (confluence of Chandra and Bhaga) to Lady of Keylong through their village. Many students showed small springs and natural bowdies. A student from Rohru took the class to a journey to Giri Ganga the origin of Giri river a tributary of Yamuna.

Besides the above there were a number of presentations that took us on a geographical ride throughout Himachal.
