FIELD SURVEY (2023-2024)

The Department of Geography government College Sanjauli has organized a three days Field Survey Tour to Solan town of Himachal Pradesh, from 15th Feb to 17th Feb 2024. The tour was aimed at providing students with practical knowledge and hands-on experience in the field of geography generally and in geographical Information system particularly. In total seven students have been participated in this field survey.

Fieldwork is an integral part of the course requirements for geography students, and the Solan presented a perfect opportunity for them to gather data and analyze it. The objective of the filed survey was mapping of rain water harvesting structures within the planning area. Proposing methodology for house tax assessment using remote sensing and GIS techniques.

Remaining students (32) of the B. A. 3rd year have been directed to conduct field survey of their respective residential areas.

Total 39 students have submitted their field survey project for the season of 2023-24.
