“Wetland For Life Event”

Held

at Peterhof

Shimla

The ‘Wetland For Life’ event held at Hotel Peterhof Shimla for two days that is on 30th & 31st August, 2024. In this event 20 students of Govt. Degree College, Sanjauli went to attend the event from Geography Department under the supervision of assistant professor of Geography Dr. Khayal Chand. The event was organized with the objective of raising awareness about the importance of wetlands in maintaining ecological balance, supporting biodiversity, and combating climate change. It is a film fair festival which was celebrated under the India Germany Technical Cooperation Project. In this event our honorable chief minister Mr. Sukhwinder Singh Sukhu was invited as the chief guest.

Screening of Movies: -

In the event different pictures and documentaries were screened. Some of them are as follows:

Turtle: - is an Indian-Hindi language film directed by MR. Dinesh S Yadav and produced by Mr. Ashok H Chaudhary. This film is based on the issue of world water crisis.

The Jujurana’s Kingdom: - It is the documentary which was filmed by Miss. Munmun Dhalaria. She is from Dhramshala, HP. She is an independent filmmaker and national geographic Storytelling Explorer.

No Water, No Village: -

Through this film we came to know about the challenges faced by people of Lahaul & Spiti, HP due to the scarcity of water and downfall in the level of annual snowfall as it is the only source of water for them for personal use and for agriculture.

Cultural Significance of Renuka Wetland: -

The Renuka Wetland in HP, India has many cultural and religious significance. This documentary of duration 6min.56sec. Is directed by Mr. Satish Sharma.

Rain Man: -

This Small Documentary Told us about the importance of Rainwater harvesting. How we can reuse the used water and how can we make use of the rainwater.

Many more documentaries and films related to wetland and climate change has been screened such as: - Cultural Significance of Haripur Village, Green Renuka Ji Fair etc.

This programme was held to make people more attentive towards the problem of climate change and depleting wetland resources. What kinds of the problems can be faced by our future generation? How can we conquer such problems? Through this film fair they have tried to make people known to the problems which are now being faced by the generation and can be

faced by future generation at high scale. This programme also increased the knowledge of the people about the importance of nature and natural resources.
