

REPORT ON THE SCREENING OF

“ICE ON FIRE”

DOCUMENTARY CONDUCTED JOINTLY BY DEPARTMENT OF POLITICAL SCIENCE, JOURNALISAM AND MASS COMMUNICATION, AND GEOLOGY

On 17th October 2019, “ICE ON FIRE” documentary was screened at college auditorium for students by department of Political Science, J&C and Geology. This documentary explores the many ways how we can reduce carbon inputs to the atmosphere and paving the way for global temperature to go down. The documentary addressed the most pertinent question of the 21st century that – “can we reverse climate change”? The documentary was successful in instilling a spirit of scientific enquiry and temperament among the students, as students were eager to know more about the climate change.

The idea behind jointly conducting an event between department of Political Science, J&C and Geology was to promote an interdisciplinary approach among students, so that the concerned topic is better understood by the students.

The documentary was screened and organised by:-

ABHISHEK THAKUR (Assistant Professor Political Science)

SANDESH KUMAR KALTA (Assistant Professor J&C)

SHUBHAM CHOUDHARY (Assistant Professor Geology)

Following photos of the event are attached within the report-
