

MATHS REVEALED

The Department of Mathematics, Govt. College Sanjauli, organized a lecture of the series titled "Math Revealed" on October 17th . The event, which commenced at 11:00 am in the Mathematics Room, aimed to foster students' interest in mathematics by showcasing its real-world applications.

Dr. Girish Kapoor, Head of the Department, welcomed the audience and highlighted the motive behind the lecture series. He emphasized that mathematics is not limited to classrooms and that this series would provide a deeper understanding of mathematical principles.

The first session, titled "A Math Puzzle Which Made Brain Scanning Technology, CT Scan Possible," was delivered by Dr Anjana Sharma. She explained complex concepts, including transcendental functions and triangular numbers, and maths behind CT scan technology , how a simple game of bowling is behind the innovation of CT Scan .Dr. Sharma's engaging presentation made the topic comprehensible to the students.

The event was attended by Dr Poonam Sharma from Mathematics Department and teachers from other department students who actively participated in the Q&A session. We are hoping for the next session of this series very soon, which will further enrich our understanding of mathematics and its applications.

The "Math Revealed" lecture series is an excellent initiative by the Department of Mathematics, Govt. College Sanjauli, to promote mathematical awareness and appreciation. The first session was engaging and informative, leaving a lasting impact on

the audience.
