

A Report On

Anti-Chitta & Clean Environment Awareness Mini Marathon - 2026

Venue: Ridge Ground, Shimla

Organisers: Himachal Pradesh Police and the Department of Environment, Science, Technology & Climate Change

Date : 05 June 2026

Rotaract Club of Govt. College Sanjauli took part in the “*Anti-Chitta & Clean Environment Awareness Mini Marathon – 2026*”, organized by the Himachal Pradesh Police in collaboration with the Department of Environment, Science, Technology & Climate Change, on 05 June 2026 at Ridge Ground, Shimla, on the occasion of World Environment Day. The event was held under the theme “Clean Environment and Chitta-Free Life” and aimed at raising awareness about the menace of drug abuse while promoting environmental conservation, public health, fitness and social responsibility.

A total of fifteen Rotaractors from the club enthusiastically participated in the mini marathon, joining hundreds of other participants including senior officials, students from various schools and colleges, sports organizations and citizens from across the region. The run combined the dual causes of environmental protection and the fight against substance abuse, encouraging participants to pledge their support towards a clean and drug-free Himachal Pradesh. Through their participation, the students of the club reaffirmed the importance of youth involvement in building a healthier and more environmentally conscious society.

The activity was organized under the overall initiative of the Himachal Pradesh Police and the Department of Environment, Science, Technology & Climate Change, and was graced by senior dignitaries including the Governor of Himachal Pradesh and the Director General of Police. The participation of the Rotaract Club reflected its continued commitment to social responsibility and community engagement under the guidance of **Club Convenor Ms. Rita Chandel** and the leadership of **Club President Rtr. Vineet Ronta**. The event concluded successfully, leaving the participating students inspired to continue contributing towards environmental conservation and a drug-free society.
