

Report On **WATER CONSERVATION & RAINWATER HARVESTING TRAINING PROGRAMME**

Participating Club	Rotaract Club of GC Sanjauli
Programme Organised by	EIACP PC-Hub, HIMCOSTE
Date	19 August to 24 August 2026
Venue	CSLC, Science Museum, Shoghi–Anandpur, Shimla
Total Beneficiaries	11

OVERVIEW

Eleven Rotaractors from the Rotaract Club of GC Sanjauli participated in a Water Conservation and Rainwater Harvesting Training Programme held from **19th to 24th August 2026** at the Centre for Science Learning and Creativity (CSLC), Science Museum, Shoghi–Anandpur, Shimla. The programme was organised by the EIACP PC-Hub, HIMCOSTE.

The training programme focused on creating awareness about water conservation, rainwater harvesting and sustainable management of natural water resources.

TRAINING & LEARNING

The participants attended informative and interactive sessions conducted by experts from Shoolini University — Dr. Ravikant Thakur, Dr. Himani Chandel, Dr. Sagrika Sharma and Mr. Rishi Kumar.

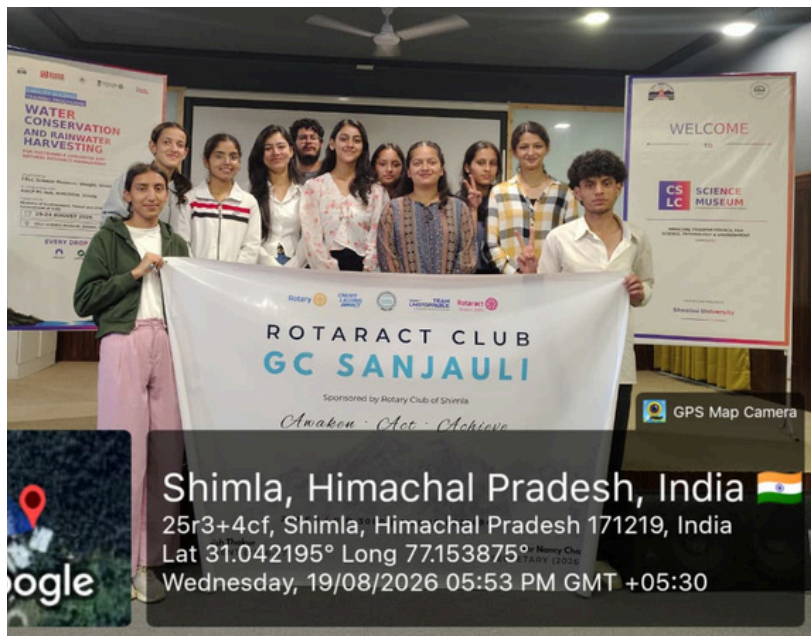

During the programme, the Rotaractors learned about various rainwater harvesting techniques, including rainwater collection, filtration, storage and effective utilisation. They also gained practical knowledge about the importance of conserving rainwater and adopting sustainable approaches to water management.

PARTICIPATION & IMPACT

The programme provided the participants with valuable practical exposure and a better understanding of the importance of water conservation and sustainable water use. It also promoted the message “Catch the Rain”, encouraging participants to spread awareness about responsible water management.

CONCLUSION

The training programme was a valuable learning experience for all 11 Rotaractors. Principal **Prof. Bharti Bhagra** congratulated the participants, and the participation was carried out under the guidance of Club Convenor **Prof. Rita Chandel**.
