

### **Digital Podium:**

- **Touch Monitor** - Podium works with the simple touch of your finger or any opaque object or a dummy pen. It follows your instructions religiously.
  - **Quality Sound** - The inbuilt PA system not only makes your voice audible, but also ensures clarity throughout the lecture.
  - **Simplified Connections** - It has got all prime cable connections as the equipment is complete with electrical and networking fittings for the functionality of integrated devices.
  - **Ample storage** - It has good storage with side drawer for visualizer, keyboard drawer and cabinet shelves.
  - **Plug & Play** - Every device is connected in such a way that makes the use of devices on one stand. Just you have to plug-in to start the lecture.
- This machine very beneficial to the students during the lecture quiz competition, it is mostly used in Conference hall and College Auditorium.
