## • **VISION, MISSION OF THE COLLEGE**

The vision, mission, and objectives of the institution are focused on providing high-quality education and promoting intellectual and social growth among students. The institution's vision is to establish itself as a benchmark for educational excellence by employing innovative teaching methods and empowering students to achieve their full academic and social potential. The mission of the institution is to cultivate intellectual excellence and social leadership in both educators and students, enabling them to thrive in an increasingly competitive and globalized world. The institution has set several objectives to accomplish its vision and mission, including establishing a robust educational environment, equipping students with essential skills and knowledge for successful careers, promoting human values, and encouraging holistic personality development through sports and co-curricular activities. Furthermore, the institution emphasizes preserving and promoting the nation and region's cultural heritage, fostering critical and fearless thinking, and playing a pivotal role in the region's development by integrating traditional knowledge systems with global trends. To create a strong educational environment, the institution commits to utilizing innovative teaching and learning approaches, hands-on and experiential learning techniques, and cutting-edge technology. It also acknowledges the importance of instilling human values, such as discipline, tolerance, democratic inclusivity, and personal integrity, through programs and activities that facilitate meaningful discussions and promote intercultural understanding. The institution provides a platform for students' holistic development by recognizing the significance of physical and mental well-being, offering opportunities for sports and extracurricular activities. Additionally, it preserves and promotes the nation and region's cultural heritage and takes a leading role in the region's development by blending traditional knowledge systems with contemporary innovations and encouraging sustainable development practices. The institution has also adopted decentralized and participatory approaches in its academic administration. It operates through the collaborative efforts of the head of the institution and key stakeholders, including students, employees, alumni, Parent-Teacher Association (PTA), and community representatives. The institution functions smoothly through the formation of various committees, the appointment of a bursar, and the creation of a staff council. The principal does not make administrative decisions without consulting the committees. Committees responsible

for student welfare have fair representation from students, including the Internal Quality Assurance Cell (IQAC), Anti-ragging committee, Women's Cell, Committee for the Prevention of Sexual Harassment, Hostel, and Canteen. Student welfare committees ensure fair representation from students and consider their opinions, suggestions, and complaints before making decisions. Student organizations with diverse ideologies exist, and discipline-related decisions are made after consulting leaders from these organizations.

The institution's vision for NEP implementation from the 2023-2024 sessions includes several key aspects, such as continuous learning through teacher FDPs like IIT Bombay Spoken Tutorial and integrating Google Workspace with the existing ERP system. The National Academic Repository ensures academic excellence, while the introduction of the Vidwan portal aids in research collaborations. The institution fosters research activities, innovation through student-led projects, and incubation centers in line with the NEP policy document.
