

Cleanliness in Washrooms, Buildings, and Campus

The Government College Sanjauli may be a small campus, but it prides itself on being neat, clean, and well-maintained. Every effort is made to ensure that the washrooms, buildings, and overall campus environment are kept in pristine condition.

Cleanliness and hygiene are top priorities, with regular maintenance and cleaning schedules in place to ensure a pleasant atmosphere for both students and staff. The washrooms are frequently cleaned and supplied with essential hygiene materials, while the buildings and campus grounds are free from litter and well-organized.

This attention to cleanliness reflects the college's commitment to providing a healthy and beautiful learning environment, making it a welcoming space for all.
