

## 2. Action taken report and achievement report as Clean and Green campus initiatives:

### **GREEN AUDIT**

#### **ACTION TAKEN AND ACHIEVEMENT REPORT**

The following activities were undertaken to fulfil the objectives of green and clean campus:

1. Field trips in the nearby localities, Poster making and documentary screening on understanding of Environment conservation were organized.
2. Solar panels were installed in the campus (on dated 02.03.2021) to save and conserve electricity, a step towards sustainable use of energy.
3. The college authorities introduced the use of LED tubes and bulbs, shifting towards renewable source of energy like installation of solar panels in the campus, which subsequently resulted in reduced electricity consumption.
4. Awareness among new girl students towards use of incinerator for disposal of sanitary pads.
5. The iron waste from the college buildings was recycled into containers and stands for plantation of ornamental plants in the college campus.
6. Proper maintenance of the water tanks and taps in the college campus to ensure zero wastage of water.
7. The employees of the college prefer car pool to encourage sustainable transportation.
8. Beautification of the college campus with lush green trees, shrubs and ornamental plants in the surroundings. Also, indoor plants maintained by all the departments in the science block. The students participated in beautification of Botany department by donating medicinal as well as ornamental plants.
